Risk Rating.

The Risk Rating process is provided for guidance only. It is the risk assessors' evaluation of the risks that is important, and this may differ from the result indicated by the risk rating matrix. Even after taking the risk rating into consideration employers still have a duty to ensure that sufficient and adequate control measures are in place to ensure that any remaining risks are kept as low as is reasonably practicable.

What are the Hazards? (What can go wrong)	Who might be Harmed & How?	Existing Control Measures (What are you already doing to manage the hazards/risks?)		k Rating trols in Impact / Severity		Additional Controls Required (Where the existing controls are insufficient to reduce the risk to an acceptable level) Use the scoring table below to assist in planning actions.	Action By Who?	Action By When ?	Additional Action Completed (Initials)
Catching or Spreading COVID 19	Staff, Pupils, Visitors	Twice weekly Lateral Flow Testing for Covid 19 is now available for persons to carry out at home. Ongoing - Rapid Result Tests (Lateral Flow Tests) Rapid Result Tests (Lateral Flow Tests) are available for All Schools to conduct weekly testing of Staff, and Secondary School age Pupils in order to help detect those who are carrying the Covid 19 virus without displaying symptoms. The testing available consists of two Lateral Flow Tests taken at home each week, 3 to 4 days apart. Upon initial return to School in the Autumn 2021 Term Secondary aged pupils will be expected to undertake two on- site Lateral Flow Tests. The requirement for continued weekly testing for Staff and Secondary aged pupils will be reviewed regularly.	3	3	9	LFT tests to be re-distributed to parents with information. Updated parent information via letter and on website	SM / CM / JS SD / DD		

 F		 	
Pupils aged 12 to 17 are to be supervised by an adult whilst			
taking the tests, and Pupils aged 11 are to have the tests			
administered by an adult			
The On-Site testing facility will remain available to support new			
students joining the school, or others as required.			
For Pupils, the completion of 3 supervised On-Site tests is a			
pre-requirement to permit home testing.			
Although encouraged (and consent is required for on-Site			
testing) this testing is voluntary.			
Lateral Flow Test Results			
A negative result will allow the tested person to remain in			
school.			
A positive result will require the tested person start a 10-day			
self-isolation period and undertake a Confirmatory Covid 19			
PCR Test as soon as possible (within 2 days).			
The use of public transport should be avoided where possible			
by the person testing positive.			
The results of the PCR Test determining whether self-isolation			
is to continue [positive result], or if the person can return to			
School [negative result within 2 days of LFT Test].			
From Monday 16 August 2021 unvaccinated young people up			
to the age of 18 years and 6 months and fully vaccinated			
adults, are no longer required to self-isolate if they live in the			
same household as someone with COVID-19, or are a close			
contact of someone with COVID-19.			
Those identified as a close contact will be informed by NHS			
Test and Trace that they have been in close contact with a			
positive case and advised to take a PCR test. We strongly			
encourage all individuals to take a PCR test if advised to do so.			
There is no requirement to self-isolate while awaiting PCR test			
results and so individuals can attend their setting as usual.			
Children and young people who attend an education or			
childcare setting and who have been identified as a close			
contact, should continue to attend their setting as normal.			
Where tests are carried out at home the results must be			
reported to NHS Test and Trace as soon as the test is			
completed either online or by telephone as per the instructions			
in the home test kit.			
		1	

Results for tests taken at School will be recorded & reported in			
line with current School test logging protocols.			
LATERAL FLOW TEST INCIDENT REPORTING			
Incidents regarding LFT testing are to be reported as follows.			
Home testing Clinical Incidents to –			
https://coronavirus-yellowcard.mhra.gov.uk & the School			
Management.			
Home testing Non-Clinical Incidents to -			
NHS Test & Trace Service Telephone Nº 119 & the School			
Management.			
Incidents in Cohool to			
Incidents in School to -			
It is important that all incidents related to testing are recorded,			
including void results.			
Serious incidents, including those that require immediate			
pausing of all testing on site, should be escalated immediately			
to the DfE helpline.			
Incidents that disrupt testing and/or could potentially impact			
quality or safety of testing and cannot be resolved locally			
should be reported to the DfE helpline.			
Any other incidents that disrupt testing in any way, but that are			
resolved locally, should be reported to DfE through the Incident			
Reporting Form on www.Gov.uk. DfE will escalate issues to			
DHSC through the clinical governance process for rapid testing			
as required.			
DfE Coronavirus Helpline 0800 0468687.			
Records of all incidents are kept.			
SECONDARY SCHOOL LATERAL FLOW TEST FACILITY			
A dedicated Covid 19 Rapid Results Test Facility has been set			
up, the facilities & procedures of which include,			
Staff are appropriately trained for their roles.			
Secure storage for LFD Test Kits at between 2 and 30			
Degrees Celsius.			
An operational temperature of between 15 and 30			
Degrees Celsius is maintained.			
A non-porous floor.			
Good air flow/ventilation & well lit.			
One-way flow or adequate space for social distancing.			

 Test subjects seating in the Swabbing Area 2m apart from each other. A Registration desk at the entrance to the facility. Separate desks for Recording and Processing tests, and a Swabbing Area. The Swabbing desk and Processing desk are in close proximity to each other [within 1m], with the Recording desk close by. There is a clear demarcation between the Swabbing area and Processing area, and test subjects are not permitted to enter the Processing area. Hand sanitising facilities are provided, which are to be used by all persons entering or leaving the test facility. Facilities & PPE for containing & cleaning up bodily fluids are readily available (<i>Sneezing or vomiting may be expected</i>). Established NHS Testing protocols are followed in lim with the training and guidance provided. Appropriate PPE is worn - Gloves, Apron, Fluid Resistant Surgical Masks for All others. Results Recorders will need to wear Gloves if in contact with LFT Devices. PPE should be replaced between test session, and Sample Processors are to change gloves after each Sample. General Waste. The Swabbing area and Processing area are cleaned between each test, and the testing facility cleaned daily. General School Covid 19 control measures apply to those awaiting test and upon completion of testing. Where someone has a positive test result, they are to be kept isolated until they can return home to self-isolate, and undertake a Confirmatory Covid 19 PCR Test. For Willow Bank school this will take place in the Parents' Room. 	
---	--

Welfare facilities are provided which contain suitable levels of soap and hand sanitiser.
All persons to wash hands with soap regularly and thoroughly, for at least 20 seconds. Hands should then be dried using disposable towels etc, which should be disposed of into the bins provided.
Tissues will be provided in each room for employees and pupils. All persons should use a tissue when coughing or sneezing and then place the used tissue in the bin before washing their hands. If a tissue is not available coughing or sneezing into the crook of the elbow, with washing hands afterwards is an acceptable alternative.
Contact with personnel suspected of having caught COVID-19 will be avoided.
All persons are reminded to not touch their eyes, nose or mouth if their hands are not clean.
Any existing individual risk assessments (disability, young persons or new / expectant mothers) to be reviewed.
Follow good respiratory hygiene and skin cleaning hygiene measures at all times.
Ensure frequent hand washing/sanitising is carried out by all persons throughout the day, including as examples - • Before & after eating or handling food. • After sneezing, nose blowing & coughing or using tissues.
 When accessing frequently touched surfaces & shared areas. Before & after touching the face. Upon returning home.
After washing, hands should then be dried using disposable towels etc, which should be disposed of into the bins provided. For pupils regular hand washing / sanitising would also include washing / sanitising their hands, on arrival, after breaks, before & after lunch, after using the toilet and when changing rooms

(Younger children & SEN pupils may need additional support & encouragement or supervision for this).		
Clear signage and information are to be displayed reminding all persons of hygiene and hand washing requirements. This information should also be easily understandable to small children where necessary.		
Parents, Visitors & Contractors, etc are to be informed of the COVID 19 safety precautions of the School (Based upon Government Guidance and this risk assessment).		
An Outbreak Management Plan / Contingency plans are in place to revert to a greater level of Covid 19 control measures (possibly based upon previous risk assessment controls) should this be advised by Public Health due to local outbreaks. These contingency plans include the provision of remote learning for pupils where this becomes necessary.		
This risk assessment and any safe systems of work must be communicated to staff before they start work and be available in school.		
The SLT are to ensure that a system is in place to monitor and enforce the Covid 19 safety arrangements identified in this risk assessment.		
Employee support services (Occupational Health Service / Amica etc) are available to discuss any concerns employees may have directly related to their health, and to provide appropriate support.		
Staff continually monitor pupil wellbeing, and take appropriate measures as necessary		
Clinically Extremely Vulnerable Staff are able to return to School if their work cannot be done at home. If attending site these staff may wish to take additional Covid 19 precautions if required (e.g. limiting close contacts etc), and as agreed in their individual risk assessment. Clinically Extremely Vulnerable Pupils are able to attend school unless it is advised by their medical support team that they should be shielding.		

	0 . <i>(</i>	Although persons from the Black, Asian & Minority Ethnic (BAME) community, or those who possess other recognised high risk factors, are not officially categorised within the Clinically Vulnerable Group, due to their greater statistical likelihood of contracting the virus, it is recommended that they be considered for control purposes to be within this group. An individual risk assessment will be carried out for any person who considers that the control measures in place are insufficient for their personal circumstances. Individual risk assessments will also be carried out to determine the safety measures for those working with pupils who spit uncontrollably or use saliva as a sensory stimulant.					
Catching or Spreading COVID 19	Staff, Pupils, Visitors	Non-legislative additional control measures for consideration based upon Government Expectations & Recommendations. The Government expects and recommends that all non- exempted persons would wear face coverings in crowded areas where they come into contact with others they do not normally meet.	3	3	9		
		The Government expects and recommends that a gradual resumption to full workplace attendance will be practiced. All Staff are expected to use their own personal judgement in adopting additional control measures to minimise their own exposure risks to Covid 19. Staff may wear masks if they wish. All persons are expected to limit close contacts as far as is reasonably practicable with those persons they do not normally					
		live with (i.e. considering the frequency, duration & numbers of contacts). As meetings outside are less prone to virus spreading, the government expectation is that meetings outside would be prioritised over meetings indoors. Records of staff, visitor & contractor attendance may be used for NHS Test & Trace purposes if required.					

Ourse sate !	04-4		r				 1
Suspected case whilst on site or Positive PCR Test result	Staff, Pupils, Visitors	When a person develops symptoms compatible with COVID 19 (A high temperature, a persistent cough, or a loss or change to the sense of taste or smell) they should leave the site to start a 10 day self-isolation period and undertake a PCR Test as soon as possible, and make the appropriate NHS Test & Trace notification. The use of public transport should be avoided where possible.	3	3	9		
		The school holds a stock of self-testing kits that are available for use where it is considered that this would increase the likelihood of the test being taken.					
		Where a person tests negative for COVID 19 they can return to school (Unless the PCR Test was taken as a result of a positive Lateral Flow Test, but within the self-isolation period over two days later than the LFT Test).					
		Where a person tests positive for COVID 19 they should go home and self-isolate for 10 days (or longer if the high temperature symptom continues). The use of public transport should be avoided where possible.					
		The NHS Test & Trace system will take steps to identify close contacts of the person tested positive and instruct them accordingly. (<i>In exceptional circumstances, the School may be requested to assist in identifying close contacts</i>).					
		Individuals are no longer required to self-isolate for 10 days if they live in the same household as someone with Covid 19, or are a close contact of someone with Covid 19 - if they are fully vaccinated or below the age of 18 years & 6 months (or have a medical exemption from vaccination). Instead, they will be contacted by NHS Test & Trace and advised to take a PCR Test. All individuals are encouraged to take a PCR Test if advised to do so.					
		Children and young people who attend an education or childcare setting and who have been identified as a close contact, should continue to attend their setting as normal.					
		If several positive cases are identified within a 14-day period, this may indicate an outbreak, and in these circumstances the School should contact the DfE Advice Service (Helpline Number 0800 0468687 Option 1). Public Health England's					

· · · · · ·	
	Local Health Protection Teams will then conduct a rapid
	investigation and will advise the school on the most
	appropriate action to take (such as implementing Outbreak
	Management Plans).
	If a person receives a positive Covid 19 PCR Test result or
	displays symptoms - A high temperature, a persistent cough,
	or a loss or change to the sense of taste or smell they should:
	Notify the Headteacher immediately.
	Avoid touching anything.
	Go home immediately (Children accompanied by their
	parent, etc).
	All other persons are to maintain a safe distance from
	affected individual.
	If they need to exclude an encourt this should be into a
	If they need to cough or sneeze this should be into a
	tissue which is then put into a bin, or if they do not
	have tissues, cough and sneeze into the crook of their
	elbow.
	Areas occupied and equipment used by the affected
	person are to be thoroughly cleaned and disinfected,
	with the waste materials stored securely, double
	bagged, for 72hrs before disposal.
	They must then follow the guidance on self-isolation &
	testing and not return to school until their period of
	self-isolation has been completed or have received a
	Negative PCR Test result.
	Where persons have been in contact with someone who has
	been taken unwell with Covid 19 symptoms they do not need
	to go home to self-isolate unless they develop symptoms
	themselves'.
	They should wash their hands thoroughly after the contact.
	Hands should then be dried using disposable towels etc, which
	should be disposed of into the bins provided.

Travel off site	Staff, Pupils	If a pupil with COVID 19 symptoms needs to remain at School until collected they should be located in the parents' room separated from all other persons with the window open if possible, but with the door closed (A local decision should be made regarding whether or not adult supervision is required in the room). A separate toilet facility should be used if necessary (visitor toilet identified for this purpose). Staff should keep 2m away from the pupil where possible. If a member of Staff needs to attend to the pupil by physical contact, PPE appropriate to the level of contact should be worn (Gloves, apron, face mask & eye protection as necessary). The toilet, room used, and any PPE used should be cleaned and disinfected after use. Arrangements should be made for the parent etc to collect the child, and only under exceptional circumstances is school transport to be used to return the child home. Remote leaning is provided to pupils who are self-isolating, and where they are well enough to participate. Children must not board home to school transport if they have Covid 19 symptoms. Where possible a symptomatic or positive tested child should not use public or dedicated school transport. Where possible, open vehicle windows for increased ventilation. If a vehicle needs to be used to transport a child with Covid 19 symptoms, wherever possible, Use a vehicle with a bulkhead for segregation	2	2	4		

		 Handwashing/sanitising before and after transport activities and when disposing of waste. On dedicated transport, Hands are to be sanitised on boarding & disembarking. Frequently touched vehicle surfaces are to be cleaned after each journey, and enhanced cleaning carried out at the end of each day. Drivers are to have access to and use hand sanitiser throughout the journey and after assisting passengers. Children are to be encouraged to carry & use tissues on home to school transport. If used, these will need to be disposed of into a covered bin, either on board the vehicle or upon arrival at school. Ventilation is to be maximised (i.e. opening windows). 					
		 The vehicle is to be regularly cleaned. Face coverings are recommended to be worn in enclosed crowded spaces where other persons who you do not normally meet are encountered, such as when using public or dedicated transport. External Visits, The Covid 19 safety measures outlined in this risk assessment, and those of the venue being attended are to be complied with as far as possible during external visits. Overseas visits are not recommended to be undertaken until the start of the Autumn 2021 Term. There are no planned overseas trips this year. 					
Contaminati on during Access to & egress from site	Staff, Pupils, Visitors	Any persons who are showing any of the signs of COVID -19 may NOT come to school. Hand cleaning facilities or hand sanitiser should be available at the entrances/exits and throughout the school and should be used by all persons when entering and leaving. Common contact surfaces in reception, office, access control and delivery areas e.g. screens, telephone handsets, desks, are to be regularly cleaned, particularly during peak flow times.	2	3	6		

		Visitors All visitors & contractors are to be made aware of site rules. Visitors will sign into school and be encouraged to wear a mask on site.					
Contaminati on within Internal Areas	Staff, Pupils, Visitors	 All persons are to wash & dry/sanitize their hands upon arrival at school. Strict hygiene rules to be implemented, all staff to be asked to do the following: Wash hands on entry and regularly thereafter. Use alcohol-based hand sanitiser. Wash hands if face is touched. All hand contact surfaces to be regularly cleaned. Limit working with paper/other materials that are shared in a way that may aid transmission, i.e. consideration to be given to marking work (done electronically), photocopying, etc. Equipment, Activities and resources Limit the use of shared resources. Staff & pupils have their own allocated individual frequently used resources such as pens & pencils. All equipment & resources are to be regularly cleaned (including IT equipment), and equipment & resources that are shared between groups are cleaned between each use. Pupils should be reminded only to bring essential items into the school. Doors may be propped open to reduce contact points and increase ventilation, provided fire safety, security & safeguarding requirements <u>are not compromised.</u> Fire doors should not be held open – unless by the use of devices that automatically release them in the event of a fire alarm activation. Ensure occupied rooms are well ventilated, opening windows where possible (<i>The School management may need to give careful consideration to how far to open windows when rooms are occupied & unoccupied for the maintenance of thermal comfort</i>).	2	3	6		

r			1				I
		 Areas of poor ventilation should be identified, and measures taken where possible to increase ventilation in these areas. Carbon Dioxide monitors will be used to help identify areas of poor ventilation. But the manufacturer's instructions for these should be followed to ensure accurate results. Desk or ceiling fans can be used provided that the area is well ventilated but they should not be used in poorly ventilated areas. Outdoor learning opportunities will be used if appropriate. Bins are to be provided in each main room to collect used tissues and are emptied regularly. 					
Contaminati on in Outdoor Areas	Staff, Pupils	Hand washing & drying facilities are available for all persons upon entering and leaving outdoor areas. Specific guidance on sports can be obtained from <u>https://www.afpe.org.uk/</u>	2	3	6		
		Where lessons are taken inside or outside, the same ventilation, and hand washing protocols will be adopted.					
Work planning	Staff, Pupils,	The use of shared resources (i.e. stationery & equipment) is to be limited, and each item regularly cleaned upon change of user.	2	3	6		
		Where SEN pupils are attending School the actual measures to be adopted for each case should be determined by a review of each pupils Health Care/ Support Plan/ Risk Assessment, and considering the individual circumstances of each case.					
Cleaning	Staff, Pupils, Visitors	A cleaning schedule will be implemented throughout the site, ensuring all areas and equipment are all thoroughly cleaned at least twice per day, focussing on frequently touched surfaces.	2	3	6		
		 Cleaning protocol is as follows: A combined detergent disinfectant solution or chlorine- based cleaner is to be used. (COSHH assessment required) 					

 Extra attention is to be given to frequently touched areas and surfaces, e.g. doors, toilets, door handles, phones, light switches and door fobs, etc. Hand towels and hand wash are to be checked and replaced as needed by the Premises Officer and cleaning staff. Enhance the cleaning regimes for toilet facilities, particularly door handles, locks and the toilet flush, etc Cleaners are to wear disposable or washing-up gloves and aprons for cleaning - (if cleaning a heavily contaminated area eye and respiratory protection should also be used). Where Covid 19 contamination is suspected or identified the waste cleaning materials and used disposable PPE should be double-bagged, then store securely for 72 hours then thrown away in the regular rubbish after cleaning is finished When disinfecting, use disposable cloths, to first clear hard surfaces with warm soapy water, then disinfect the surfaces. Cleaners are to wash & dry their hands after removing the PPE. Only cleaning products supplied by the school are to be used (Suppliers may need to be notified if additional stocks are necessary). Bin liners should be used in all bins and bins emptied daily. Where cleaning has been identified in the risk assessment this is normally with standard products such as detergents & bleach. If Covid 19 contamination is known or suspected, then the cleaning should be followed by disinfecting (using chlorine based products). Alternative cleaning & disinfecting methods may be appropriat in some circumstances (e.g. after known contamination), but these should only be carried out following control measures developed from a separate risk assessment and in consultatio with the product suppliers. 		
---	--	--

Deliveries & Waste collection.	Staff, Pupils, Delivery drivers, Waste collection operators	If practicable drivers should wash or clean their hands before unloading goods and materials. Hands are to be thoroughly washed & dried after handling all deliveries or waste materials. Waste bags and containers - to be kept closed.	2	2	4			
Contractors	Staff, Pupils, Contract ors	 All contractors are to wash their hands upon entering the site. Strict hygiene rules to be implemented, all contractors are to be asked to do the following: Wash hands on entry into individual work areas – or use alcohol-based hand sanitiser. Repeat the hand washing/sanitising regularly. The contractor is to notify the premises staff of all areas visited, in order that these can then be thoroughly cleaned. Contractors & Third Party Organisations working on site are to have their own COVID 19 risk assessments and safe systems of work which are compatible with the school COVID 19 arrangements, or are to comply with the schools arrangements. 	2	2	4			
Poor hygiene	Staff, Pupils, Visitors	 Wash hands thoroughly and regularly. Use soap and water for at least 20 seconds. Hands should then be dried using disposable towels etc, which should be disposed of into the bins provided. Use alcohol-based hand sanitiser if soap and water is not available and hand washing technique to be adopted as directed by NHS guidance. Avoid touching your face/eyes/nose/mouth with unwashed hands and cover your cough or sneeze with a tissue then throw it in the bin. Regularly clean the hand washing facilities and check soap and sanitiser levels. Provide suitable and sufficient rubbish bins for hand towels with regular removal and disposal. 	2	3	6	Remind pupils of safety measures at regular intervals	DD	

		Sites may need extra supplies of soap, hand sanitiser and paper towels and these should be securely stored.						
Kitchen area use - exposure from large numbers of persons	Staff, Pupils	 Hand cleaning facilities or hand sanitiser should be available at the entrance of any room where people eat and should be used by all persons when entering and leaving the area. Where catering is provided on site, where possible food served or displayed should be individually served (or wrapped) to avoid contamination. Touching multiple items before making final selection should be discouraged. Food displays should be protected against contamination by coughing, sneezing, etc). Where possible, Kitchen windows should remain open to increase ventilation. Tables and chairs should be cleaned between each use. All rubbish and waste should be put straight in the bin by the user and not left for someone else to clear up. All areas used for eating must be thoroughly cleaned at the end of each break and shift, including chairs, door handles, and tables. 	2	3	6			
Use of Changing facilities, toilets, showers and drying rooms	Staff, Pupils	 Provide suitable and sufficient rubbish bins in these areas with regular removal and disposal. Bin liners should be used in all bins. Consider the disconnection of forced air hand driers to reduce unnecessary air movement (This may require the provision of additional hand towels/tissues). Wash & dry hands after using the facilities. 	2	3	6			
Lack of awareness	Staff, Pupils, Visitors	Clear posters, signage and information is to be displayed around the site (and particularly in welfare areas) reminding all persons of hygiene and hand washing requirements. This information should also be easily understandable to small children where necessary.	2	2	4	Review all current school signage and replace / add / remove as appropriate	SM	

		"Toolbox talks" will be carried out for all personnel on site, warning them of the risks posed by the virus as well as the control measures outlined in this assessment and from government guidance. This will include informing personnel of the known symptoms. Staff are to challenge any person not adhering to the control measures within this risk assessment.					
First Aid provision / Medical Needs	Staff Pupils, Visitors	 When physical contact is necessary PPE appropriate to the level of risk is to be worn (Gloves, face mask, apron, eye protection). Upon completion of first aid, thoroughly wash & dry the hands and any points of contact, and clean & disinfect the affected area. If dealing with a child with complex medical needs where aerosol generating procedures are performed an FFP3 standard face mask should be worn, for which face fit testing (FFT) must be completed beforehand. Other appropriate PPE may also be required – refer to latest government guidance for the procedure. 	2	3	6

Scoring Table

Twice weekly rapid testing to be available to everyone in England - GOV.UK (www.gov.uk)

LE	VEL OF RISK	OVERALL R/	ATING	HOW THE RISK SHOULD BE TACKLED/MANAGED						
ŀ	IIGH RISK	15-25		Immediate Management Action						
ME	DIUM RISK	9-12			Pla	an for Change				
L	OW RISK	1-8			Cont	inue to Manage				
	5 Almost Certain	5	10		15	20	25			
I (A)	4 Probable /Likely	4	8		12	16	20			
Likelihood (A)	3 Possible	3	6		9	12	15			
Likel	2 Unlikely	2	4		6	8	10			
	1 Very Unlikely / Rare	1	2		3	4	5			

Risk Scoring Guide

Consider the potential harm or injury that could result from the identified hazard if an accident or incident were to occur, based on the table below.

	IMPACT	SCORE	HEALTH & SAFETY EFFECT
B)	Critical/ Catastrophic	5	Multiple deaths of employees, service users, members of the public, etc.
Criteria (Major	4	Death of an employee, service user, member of the public, etc.
	Moderate	3	Serious injury (acute, chronic of life-changing) to employee, service user or member of the public requiring medical intervention.
lmpact	Minor	2	Minor injury such as a bump or bruise that may require First Aid treatment and the person returns to work.
	Insignificant / Negligible	1	A day to day issue/problem but negligible harm would result.

Now consider the likelihood of that harm or injury being realised based on the expected frequencies in the table below.

Risk Score

To calculate the Risk Score in the Risk Assessment Register above, simply multiply the Impact by the Likelihood to identify the level of risk as per the table above.

	LIKELIHOOD	SCORE	EXPECTED FREQUENCY
a (A)	Almost Certain	5	Reasonable to expect that the event WILL undoubtedly happen/recur, possibly frequently and is probable in the current year
Criteri	Probable / Likely	4	Event is MORE THAN LIKELY to occur, will probably happen/recur, but is not a persisting issue. Will possibly happen in the current year and be likely in the longer term
) pool	Possible	3	LITTLE LIKELIHOOD of event occurring. Not likely in the current year, but reasonably likely in the medium/long term.
ikelih	Unlikely	2	Event NOT EXPECTED . Do not expect it to happen/recur. Extremely unlikely to happen in the current year, but possible in the longer term.
	Very Unlikely /Rare	1	EXCEPTIONAL event. This will probably never happen/recur. A barely feasible event.
