

KEY STAGE 4 RESULTS 2019

Below is a summary of our GCSE results. For a more detailed report please contact the school who will be able to provide you with a copy of the Exams 2019 Report.

In a small cohort, one student represents a large percentage. The profile of students can change dramatically year on year. Students at Children's Hospital School do not all take the same GCSE subjects and number of qualifications – students are entered for GCSE based on their individual needs with their health being paramount.

Qualifications achieved covered a range of academic and vocational qualifications, including GCSE, Entry Level, Functional Skills, BTEC, Edexcel Awards and Arts Award.

The table below shows the percent of 9 to 4 and 9 to 1 achieved at GCSE subjects, **for Y11**, offered at **Willow Bank**. They are compared with the national performance in those subjects.

Figures for 2017/2018 are in shaded columns. Because of the small number of students and the complex nature of their needs, caution is needed when comparing year on year. However, we are beginning to use external data to compare our results with, which will enable us to judge our performance by comparing with the students starting points.

GCSE PERCENTAGE 9 – 4 (A* TO C)

The percentage of GCSEs that were passed at 4 (standard pass) and above has risen steadily over the last three years to 46% in 2019, compared with 37% last year and 32% in 2017. The overall 9-1 pass rate has been increased slightly to 97%.

At CHS students are on individualised timetables according to their medical needs. They are often unable to attend CHS for 5 full days. For many students, any attendance is a significant achievement and enables them to gain qualifications they would not otherwise have achieved. It is noticeable that where students' attendance to lessons, once engaged with CHS, is good, they tend to achieve a higher number of points overall.

There is a clear positive correlation between attendance rates and the points scored from qualifications.

VOCATIONAL RESULTS 2019

In addition to sitting GCSE exams students were able to access additional qualifications:

- BCS Level 2 Certificate in IT User skills (ECDL Extra) – Level 2 (Pass/Fail)
- BCS Level 1 Award in IT User Skills (ECDL Essentials) – Level 1 (Pass/Fail)
- Certificate in Number and Measure Level 1 (Pass/Fail)
- Functional Skills Maths – Level 1 (Pass/Fail) and Level 2 (Pass/Fail)
- Entry Level Science -EL1, EL 2, EL 3

- Arts Award (Bronze Level (Level1))
- Prince's Trust Personal Development and Employability Skills (Level 2)

All these qualifications help to offer a broad curriculum to CHS students. They can be especially useful for ensuring students who, through illness have missed too much to contemplate a GCSE entry, are able to achieve some form of qualification in order to ensure a future pathway.
